Some infos on the impuls MinuteConcert-format

impuls (www.impuls.cc) is, for the 12th time, hosting a full-day gallery tour with short concerts. Over the years, the format has received tremendously positive responses from audiences and the press, alike, as well as from the participating artists themselves, and has become a popular fixture in Graz's music scene.

Young musicians and/or **students** (due to organizational and cost-related reasons, currently living in Austria or close by) are again invited to **participate** in 2020.

The **music and gallery tour 2020** starts on **June 6** at around **10 a.m.** and will, in approx. 1,5-hour intervals, be played successively in **galleries** in **Graz** (Blazek, kunst.wirt.schaft, Künstlerhaus, Kunstverein, MUWA, Minoriten Galerien, < rotor >). The exact schedule for rehearsals, sound check/arrival and further information about the preceding workshop is still tba. The approxiamte **concert length per gallery is about 30 minutes**, < rotor > as final venue where, **till about 10 p.m.**, host several program points. The concerts in each gallery consist of **several short contributions by different musicians/formations**. The compositions are to be selected from the fields of **modern classical, new and contemporary music**, besides also **improvisational works** can be considered. Due to spatial restrictions, the **formations** should be in the range of solo to quartet. Larger formations, as well as those including percussion instruments and special technical equipment (unless provided by the artists themselves), must be discussed with and agreed upon by impuls beforehand. Unfortunately there are no pianos available in the galleries.
